Dog Fennel Cures Consumption.

Dog fennel, the common weed which grows alongside the road all over Kentucky, is the latest remedy for consumption, and R. J. Tifford, City Building Inspector of Louisville, says it will unquestionably cure that dread disease, or, in fact, any disease of the lungs. The fennel is soaked in whisky and the liquor is then taken internally. The treatment, it is claimed, for several weeks will result in a certain cure. Mr. Tifford says:

"The remedy is not a new one, and it did not originate with me, but it is generally known that it has curative or medicinal powers," he said. "The Indiana knew that dog fennel had powers as a medicine, and they used it for a number of diseases. The first I ever heard of it was before the war, when my family kept a large quantity of whisky, into which the strength of the fennel had been absorbed, and it was given to the negroes when they were sick with any affection of the lungs. I have seen cases of consumption completely cured after the patient had reached an advanced state of the disease, and I know that it is a powerful and efficient medicine."

"The manner in which it is prepared is very simple. A number of the heads of the fennel are put in whisky and left to soak for about two weeks. The whisky will absorb all the juice from the weed in that time, and it will then be ready for use. The mixture is about the bitterest thing you ever tasted, but the effect is worth the effort it takes to swallow it. A dose is a tablespoonful three times a day. I had a sister who had consumption about twenty years ago, and she tried this remedy. She did not leave Louisville, and recovered entirely and is living today. One or two other persons in my family also had consumption and were cured by the use of this remedy."

Mr. Tifford cannot explain the result of the use of the weed and knows nothing about the scientific basis for the curative power it has, but he says he wants the general public to know of it, so that all can profit from the knowledge, with the hope that it may reduce the terribly large death rate which exists in this country from tuberculosis.—*Courier Journal.*

DO IT TODAY.

The time-worn injunction, "Never put off till tomorrow what you can do today," is now generally present in the form: "Do it today!" That is the terse advice we want to give you about that lingering cough or demoralizing cold which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it today—and let that remedy be Dr. Ross's German Syrup, which has been a cure for fifty years. A few doses of it will undoubtedly relieve you of your cold, and if you continue to use a few more it will cure you completely. No matter how deep-seated your cough, even if chronic consumption has attacked you, hang on, German Syrup will surely offer a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottles, 25c; regular size 75c. At all druggists.

It Pays to Advertise.

Franklin, Ky., April 20.—Miss Hattie Dunn had published in a newspaper that she wanted a husband and there was nothing in this market that suited her. She is twenty-two years old, up-to-date and a daughter of a well-to-do farmer. Fifty-eight men responded to her advertisement and she selected Eugene Zimmerman, of Morris, Ill. After a short graphic correspondence he arrived here and in less than six hours they were quietly married by the Rev. J. H. Dashwood. Her parents are pleased with their new son-in-law. They will live at Morris.

Foley's Honey and Tar contains no opiates, and will not constipate like nearly all other cough medicines. It is a safe substitute. Louisa Drug Co.

Insurance Rebating.

Frankfort Ky., April 21.—State Insurance Commissioner Henry R. Prewitt to day mailed to each of the several hundred agents of life insurance companies doing business in the State a list of questions to be answered under oath regarding violations of the anti-rebate laws of Kentucky, upon the answers to which depend whether their license to act as such agents shall be suspended or revoked. This action of the Commissioner is the beginning of a vigorous campaign against the practice of rebating which he announced he would enter upon when he assumed office the first of the present year.

The questions put to the agents in Kentucky cover the forms or schemes generally practiced by some of them in rebating to secure business in the past several years and inquire whether or not they have since January 1 last insured the life of any resident of Kentucky outside the State with the intention of evading or violating the anti-rebate laws of the State. It has come to the ears of the Commissioner that certain agents have been evading the State law by securing business in the State of Kentucky under promise of rebating to the applicant and then taking him across the Ohio river and there having the physical examination made and the application formally signed. An agent here several days ago made the complaint that he was cut out of writing a policy by an offer which came by mail to the prospective applicant that his expenses would be paid to Jeffersonville and the policy there written at less cost to him than in Kentucky.

Robbed The Grave.

A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50c guaranteed, at A. M. Hughes drug store.

STICK TO IT.

O prime little postage stamp, "holding your own" in a manner so winning and gentle. That you're "stuck on" your task—is that slang?—you'll own. And yet, you're not two-cent mental. I have noticed with pride little through thick and through thin. You cling to a thing till you do it. And whatever your aim, you are certain to win. Because you seem bound to stick to it. Sometimes when I feel just like shirking a task Or "chucking the work I'm pursuing. I recall your stick-to-it-ness and I ask "Would a postage stamp do as I'm doing?" Then I turn to whatever my hands are about And with fortified purpose renew it. And the end soon encompasses, for which I sent mail. If, only, like you, I stick to it. The success declare that true genius, so called, Is simply the will to "keep at it" A "won't give-up" purpose is never forestalled. No matter what foes may combat it. And most of mankind's vaunted progress is made. O stamp, if the world only knew it. By nothing the wisdom which you have displayed In sticking adhesively to it. —Success.

Sunflower Philosophy.

If a love letter has a grain of sense in it then it is a failure as a love letter.

Some people never have good luck, not even in starting out as the first grandchild.

You cannot make your friend popular by trying to cram him down your friends' throats.

There is one thing about an automobile. It doesn't shed hair in the spring.

We all talk so much about the Coming Man that the man who has actually arrived and doing his work faithfully and well is neglected. We are so anxious to abuse each other that we credit our own wisdom to the dead, and wonder that the men of to-day are not as smart as the men of old. Why are people so anxious to abuse each other? Why not be kinder, more appreciative? Why not help each other over the rough places.

A disordered stomach may cause no end of trouble. When the stomach fails to perform its functions the bowels become congested, the liver and kidneys congested, causing numerous diseases, the most fatal of which are painless and therefore the more to be dreaded. The important thing is to restore the stomach and liver to healthy condition, and for this purpose no better preparation can be used than Chamberlain's Stomach and Liver Tablets. For sale by A. M. The Winning Issue.

MR. EDITOR:—The bitterness existing in this state against Ex President Cleveland and the Cleveland wing of the Democratic party is, to say the least, unfortunate, especially at a time when all should be as of one mind. This fact would not be a fact if our good friends would study the history of past elections. The writer voted for Mr. Bryan and expects to vote for the nominee of the St. Louis Convention, to whomsoever it may.

Mr. Cleveland was elected on a tariff issue in 1884, and lost in 1888. That was the only national election in the whole history of the country where the Democrats on a direct issue of the tariff lost; and yet Mr. Cleveland received 35,334 more votes in 1888 than he did in 1884 when elected. He carried New Jersey and Connecticut, and lost Mr. Harrison's own state by 2348 votes. He lost New York by 13,000. A change of about 7000 votes in this state would have elected Mr. Cleveland in 1888.

The Democrats were then united and before Harrison got comfortably fixed in the White House we carried little Rhode Island, and in November of the same year we carried Iowa, New Jersey and Ohio, and lost Massachusetts by only 675. The next year we carried Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Illinois, Indiana, Michigan, Wisconsin, Montana, Nebraska and Oregon, electing Mr. Bryan to Congress. In the presidential election in 1892 the Democrats swept the whole country, again electing Cleveland.

In the presidential election in 1892 the Democrats swept the whole country, again electing Cleveland.

These were the results of campaigns made on a tariff issue. On Mr. Bryan's platform in 1896 we lost every Northern state east of the Missouri river and Kentucky in addition. In those elections of 1897, 1898, and 1899 we were fogged unmercifully. In 1900 Mr. Bryan was defeated by a popular plurality of 849,700, the worst defeat ever known in American history. Since then the tide has run against Democracy. Mr. Bryan losing his own state and his own Congressional district, and his own county. We are now without a single Senator from any northern state East of the watershed of the "Rockies." This is the result of the two issues, not of the individual men, for people are not governed in the exercise of right of suffrage by men, but by principles and policies.

You have now before you the opinion of the American voters on the two issues. "Give unto him whatsoever belongeth unto him" Soarch yourselves and judge others with fairness and an honest heart. A friend to the party.

For President in 1904:
JUDGE ALTON R. PARKER,
—or—
SEN. ARTHUR P. GORMAN.

Announcement.

We are authorized to announce
JAMES N. KETIOE
as a candidate for Representative in Congress from the Ninth District of Kentucky, subject to the action of the Democratic party.

Robert B. Roosevelt, uncle of the President, is one of the Democratic electors for the state of New York.

The contract by which the ownership of the Panama Canal passes to the United States has been signed, sealed and delivered in Paris.

Joseph H. Haddock has a safe load in the conventions held in the Sixth congressional district. Good is not in the race.

With only a few votes in opposition the transfer of the Panama Canal property to the United States was ratified at a meeting of the stockholders of the canal company in Paris.

There are no prospects for the bill for the relief of tobacco growers getting out of committee. Senator Blackburn hopes to have it reported in the short session with an amendment giving the tobacco growers still more latitude.

President Roosevelt has sent word to his friends in the Senate that the nomination of W. D. Crum, colored, as Collector at Charleston, must be confirmed. Senator Tillman is away, and it is likely that "senatorial courtesy" will interfere with the President's wishes.

Return from the Democratic county conventions in Georgia indicate that a large majority of the delegates will favor the candidacy of Judge Parker, of New York, for the presidential nomination. Twenty counties have instructed for Parker. Only one county has been carried by Hearst.

Uroy Woodson, Democratic National Committeeman from Kentucky, and one of the most widely known editors and politicians in the Blue Grass State has an editorial in his paper in which he discusses Bryan's Chicago speech. Mr. Woodson has been Colonel Bryan's closest friend and adviser in Kentucky, and his influence in the editorial, in which he takes issue with his friend and declares himself for Judge Parker, will no doubt create widespread interest.

A dispatch from New York says: "In aid of the schools for the Kentucky mountaineers, the students of the Comstock School here will give a tea and hold a cake and candy sale in the parlors of the school on April 29. Many Kentuckians who are visiting in New York will lend their aid, and a large sum of money is expected to be realized."

We Kentucky mountaineers would like to know just how and where it is proposed to aid our schools. If it is on the honor plan we respectfully ask that you apply the dose at home and to your own children.

Wheatly, has returned to Prestonsburg College, where she will resume her studies. Presiding Elder Howes, of the M. E. Church, held Quarterly meeting Wednesday and Thursday nights. He is an excellent preacher. Curtis Ford of White House has moved to Paintsville and is occupying the handsome residence at Court and 4th streets, recently purchased of James M. Price. The fresh water wells drilled on the property of John C. C. Mayo, T. J. Mayo and the public square are to be sunk deeper. They are now too salty for any use. The telephone line running from the Beaver or Wells to White House has been removed and a line is being constructed from this place to the pumping station at Subetto, in Magoffin County.—Herald.

A timber tide has at last come in Big Sandy river. The rain that began to fall on Sunday and continued right along through the week brought the long hoped for result. Timber men are happy and steamboatmen are enjoying the same pleasant sensation. Farmers who were well along with their work are not hurt by the rain. It was needed by the country in general.

Capt. F. F. Freeman "surprised the natives" around Fallsburg Saturday by catching about 40 nice bass fish, of three kinds black, green and rock bass. He never fails to catch fish when he goes fishing. If there is any secret about how the trick is done he guards it well. At any rate, his success as a fisherman is a subject for wonder and awe around here among those who have piscatorial aspirations.

While writing the above we learn that Capt. R. C. Biggs accompanied Freeman and caught a few of

The New Dentist.

Dr. E. C. Jenks arrived from Frankfort last Monday and is now installed in his office over Crutcher's store as shown by his card published elsewhere. He comes very highly recommended in every way. He has published one of the letters, which will serve as a proper introduction to the people of this community. Dr. Jenks is locating here to remain permanently.

Frankfort, Ky., Apr. 23rd 1904. To Whom It may concern: This will certify that Dr. E. C. Jenks is a member of the First Presbyterian Church of Frankfort, Ky., and it gives me a great deal of pleasure to commend him as a cultivated, Christian gentleman to any community in which he may locate for the practice of his profession. I also add that he is a skilled dentist to whom all persons needing treatment may unhesitatingly commit their case. Respectfully, J. McChesky Blayney, Pastor First Presbyterian Church.

Oil Developments.

On the Williams lease at Itagland the Kentucky Oil and Gas Company finished a well at a depth of 380 feet, which is a good prospect. This company has eleven good wells, and it is reported the Standard is endeavoring to buy the output.

The Standard Oil Company is distributing pipe and material, preparatory to laying a line from the Morgan county fields through Wolfe and along Indian creek in Menfue to connect at Itagland with its main line, thus giving them a direct line for pumping into its huge tank at Salt Lick. This line will be about thirty miles in length and goes through a territory which has all been picked up by this corporation.

New York capitalists have purchased a number of the leases in Knott and Floyd counties and will begin work at once developing the territory.

The Republicans of Lawrence county convened in mass meeting at Louisa, Saturday, for the purpose of selecting delegates to the convention at Mayville, April 26th and to the State Convention at Louisville, June 3rd. Resolutions were adopted approving the administration of President Roosevelt, the retention of Commissioner Yerkes as National Committeeman, and instructing the delegates to support Hon. W. O. Bradley and Hon. Sam. J. Pugh for delegates-at-large to the National Convention, and Hon. Chas. F. Weaver, of Ashland, and Judge Deering, of Flemingburg, for district delegates to the National Convention.

The Building Committee of the City Council has finally decided to rebuild the city building on the same general plan as before. The matter has been placed in the hands of Mr. B. F. Thomas, who has made a plan greatly improving the interior arrangement of the building. A fire-proof vault for preserving the records will be constructed. The entrance leading to the court room on the second floor will be separated from the lobby reaching the lock-up, thus overcoming an objection offered to the old plan. The building will be erected as soon as possible.

We are glad to inform our readers that Louisa has a first-class Dentist. Dr. L. D. Jones, late member of the firm of Jones & Pippin and former instructor in the Dental Department of the Washington University St. Louis, Mo., is now permanently located in our town. Dr. Jones, extracts teeth without pain, but uses neither gas, chloroform, ether, nor cocaine—You will make no mistake by calling on Dr. Jones, when in need of the services of a competent Dentist. Room No. 20 Arlington Hotel.

FOR RENT:—One cottage house, good neighborhood, and in good repair. W. Hemmels.

OUR NEIGHBORS.

We regret to report the hopeless condition of Mrs. Jane Smith, of Catlips. All her daughters are with her. It is thought she can live but a few days. She is the widow of Ed Smith. Their home has always been one of the best known and most popular along the river.

In some manner we overlooked mention of the result of the contested election case of Preston vs. Price, in Johnson county, which was tried recently before Special Judge R. T. Burns. A count of all the contested votes showed a majority of 17 for Price, the Democratic incumbent. The office involved is that of County Clerk.

C. E. Smith, real estate agent of Lexington, accompanied by Attorney Wallace Muir, left for New York, where they will close a deal with an Eastern syndicate whereby the latter will come into possession of 61,000 acres of timber and mineral land in Perry and Knott counties. Mr. Smith has had an option on the property for several months. After an inspection by an agent of the syndicate the deal will be closed for a sum said to be \$250,000.

Winchester, Ky., April 23.—Circuit Court will begin here May 2 and the suit of Mrs. Abrella Marcan against H. F. French and Senator Hargis, of this county; Judge James Hargis and Sheriff E. Callahan, of Breathitt county, for \$100,000 as damages for conspiracy to murder her husband, James B. Marcan, is attracting much attention. The defendants have given notice that they will apply for a change of venue to some other county on the ground that they cannot get a fair trial in this county.

Ironton, Ohio, April 24.—Two men were shot at Hanging Rock, a village just below here on the Ohio River, this afternoon as the result of the strike at the plant of the Hanging Rock Iron Company. The men wounded are Deputy Marshal Mike Branigan and Alonzo Wiseman, the latter being from Catlettsburg, Ky., and who came here to work in place of a striker. The officer went to arrest Wiseman, who fired, wounding the officer in the breast. The fire was promptly returned and both men emptied their revolvers, Branigan receiving another flesh wound and Wiseman also being slightly wounded. The officers finally landed Wiseman in jail.

Jackson, Ky., April 25.—The potency of the law in the administration of speedy justice is aptly illustrated in the case of Jim King, convicted at Beattyville yesterday. King had just been released from the penitentiary, where he had served a term for shooting a man of the name of Scrivner. He stopped at Lexington long enough to buy a pistol. On the following day he met his former victim on the street, and at once opened fire, several of the shots taking effect. A special grand jury was summoned, King was indicted, tried and convicted, and on the following day was on his way back to the penitentiary to serve a three-years' sentence, having had less than three days' liberty.

Blufffield, W. Va., April 21.—The little hamlet of Devon, located on the Norfolk & Western railway fifteen miles east of Williamson, was almost wiped out by fire to-night. The buildings destroyed included the only hotel, Hotel Devon. The fire originated from a defective stove in the home of D. R. Richardson, in which was located two smallpox patients, sons of Mr. Richardson. Both narrowly escaped burning, owing to the unwillingness of the onlookers to expose themselves to the disease. Only two buildings remain standing and they are insufficient to accommodate those who lost their homes. As a consequence half of the population is sheltered for the night in the railway station. The loss is \$25,000.

The Republicans of the Ninth congressional district met at Mayville with J. H. Whitolt and John D. Littlejohn, of Carter county, as chairman and secretary. Charles F. Weaver, of Boyd, and W. G. Deering, of Fleming, were chosen for district delegates, and John D. Littlejohn, of Carter, and H. C. Metcalfe of Bracken, as alternate delegates to the national convention. W. O. Bradley was named for delegate-at-large. Joseph H. Bennett, of Greenup, was named for State Central Committeeman, and John W. Yerkes for National Committeeman; D. F. Hyron, of Floyd, for district elector, and Arch Bailey, of Harrison, for assistant elector. Senator W. H. Cox was defeated for district delegate.

The U. & H. S. has a new passenger brakeman, which is a step forward with this popular line. Circuit Court adjourned at 1 o'clock this morning until 9 a. m., Friday, on account of the death of Noah Wellman, one of Catlettsburg's best citizens, and a relative of the wife of Judge S. G. Kluer. Capt. J. C. Hopkins and wife left at noon today for a few days visit in the State capital. Dr. Mar-

tin, of Ashland, went to Buchanan this morning to accompany Wm. PoHerd to Ashland, where he will remain for a visit with his sister, Mrs. Henry Geiger, hoping the change will be beneficial to him. Two convicts, wearing the stripes, were brought from Frankfort and taken on to Pikeville this morning to appear as witnesses in a very important case to be tried in Court there.—Catlettsburg Items—Independent.

While it is not generally known it may be interesting to note that Mrs. Florence Maybrick of English prison fame, is a claimant in the litigation now in the courts of the two Virginias known as the King land case. Mrs. Maybrick, who is by birth a Virginian, and whom, it will be remembered, was but recently released from a long term in an English prison, as the granddaughter of Darins Blake Holbrook inherited his claim to a large part of the 500,000 acre tract known as the Robert Morris grant. Her attorneys in the state of Virginia are making active investigations in her behalf and it is her intention to return to her native state as soon as the period of her detention elapses to look after her claims in person.—Huntington Herald.

Huntington, W. Va., April 23.—After a trial lasting thirteen days in which many of the leading attorneys of Virginia, West Virginia and Kentucky participated, Col. V. A. Wilder, of New York, and Daniel Justice, of Tazewell, Va., were this evening convicted in the Federal Court here for conspiracy to thwart the ends of justice by suborning witnesses who were to testify in the famous Henry C. King land case.

This case has been in the courts for fifteen years, and the title to 500,000 acres of valuable lands on which boundary numerous small towns are located is in jeopardy. This is the same case which resulted in charges being filed against United States District Attorney G. W. Atkinson and others, but who were later proven innocent of any wrongdoing. Mr. Atkinson led the prosecution in the trial of Col. Wilder and Justice. Col. Wilder is nearing his three-score years and ten. Sentence has not yet been imposed, as a motion has been made for a reopening of the case.—C. J.

On last Saturday there arrived here an order from C. & O. headquarters to procure bids on a pressed brick depot building for Louisa, and to get them in at once so as to have work started as soon as possible. This is good news, as it awakens the abandoned hope that we are to have a fine brick structure. The visit of President George W. Stevens last week has evidently been a good thing for us. We hope our contractors will put in bids on the brick building.

Over-Work Weakens Your Kidneys

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pain, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmor's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle by mail. Please send Swamp-Root free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmor & Co., Birmingham, N. Y.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Va. OBITUARIES.

Margaret Wolf was born Oct. 2, 1856, and died April 13th, 1904, age 37 years 6 months and 11 days. She was married to George W. Wolf at the age of 25. She had been a member of the Baptist church for 10 years and was a kind and devoted wife and mother. She was a victim of the dreaded disease, consumption, but she patiently bore her suffering and was ready when the summons came. She leaves a husband and four children to mourn their loss. Children and friends, Margaret is not dead but in the language of our Saviour she sleepeth. She was laid to rest in the Davis graveyard to sleep till God calls the sleeping dead to come forth and she will be among that number that will be the first to rise.

May God ever bless her husband, children, brothers, and sisters and all the kind friends who were ready to minister to her wants and necessities.

L. E. D.

On the 12th of April, 1904, the swift messenger of death visited the home of Marvin and Jennie Cassidy at about 2 o'clock, and took from them their sweet little daughter, Birdie, age 17 months.

A few nights before her mother in a dream was warned of her light by an angel appearing. Little Birdie fell asleep in Jesus and her little body as it lay looked like the picture of an angel.

She was a very bright child. Her prattling tongue has ceased on earth but dear father, mother and sisters her sweet voice can be heard around the great white throne.

Little Birdie was laid to rest in the Garrett Street cemetery, many weeping friends and relatives attending the burial. A friend.

Vina Pemberton was born Feb. 24 1870 and died April 14th, 1904, age 34 years 1 month and 20 days. She had been very low for several days and her death was not unexpected. She had been a member of the Baptist church for 16 years. Her father, mother, three brothers and three sisters have gone to the glory land. Two brothers and four sisters remain on earth to mourn. She also leaves a husband one son and four daughters to mourn their loss. The remains were laid to rest in the Kirk cemetery. Funeral services were conducted by Rev. Crum.

We extend our heartfelt sympathy to her husband children and many friends and may God ever bless the ones who cared for her during her sickness and death.

L. E. D.

The angel of death visited the home of W. H. Moore the 31st of March and took his dear companion from him. Inez was a good wife and a loving mother. She was one that tried to be religious a good part of her life, although she did not make any loud profession; but we have no doubt but what she is one of the redeemed in heaven.

Rev. Wm. Coffey visited her a short time before her death and she told him how happy she was. She said she was so happy that it seemed like she could almost look up into heaven. Inez loved her Bible. She would never fail to read a chapter each day. We would say to the friends, cheer up for our loss is heaven's gain. Inez is not dead. She is only asleep. Her remains were taken to the old homestead and laid to rest by the side of her mother, who a few years ago preceded her to the better land. The funeral services were conducted by Rev. Wm. Coffey.
